

Introducing our Newham MNVP Chair:

"I'm a Newham resident and a mum of two who is enthusiastic about bridging the gap between service users and service providers, an inclusive voice hoping to empower people to make their voices heard and to navigate change for better and improved future experiences. I'm also an experienced childcare professional who understands and knows the fundamental importance of developmental life stages between preconception to 5 years of age.

Rina Begum

My passion for this role has stemmed from my own negative maternity experiences, these negative experiences are what make me even more dedicated to make change. Together we can care, grow, achieve, prosper and succeed."
